Company Profile

GAE (Golden Age Element) Industrial Manufacturing CO., LTD. is a specialist in manufacturing a wide variety of T.c.T. screw forming tools for more than 10 years. Through years of dedicating to deliver high quality screw forming tools, **GAE (Golden Age Element)** wins high reputation in the screw manufacturing industry. However, **GAE (Golden Age Element)** never ceases to apply technology for higher performance in order to delivery the highest customer satisfaction in order to reach win-win-win situation among our customers, end-users, and us.

Knowing the very detail of screws, we are not satisfied with only this, but invest a huge capital to accumulate our knowledge of Titanium, as Titanium is regarded as the most important metal in the coming century. By combining our screw forming tool producing knowledge, and our understanding regarding Titanium, we have successfully developed our know-how to produce Titanium Screw by adopting the procedure of forging head and rolling thread. This procedure to produce Titanium Screw can enhance the screw itself with highest potential to perform.

As mentioned above, our knowledge toward screw forming tools, and Titanium results in our capability to produce more than Titanium, but also other Titanium Components. Like the acronym of our company name GAE refers to Gold Age Element, we expect ourselves can create the golden age for producing the element for industries.
